## THE COMMUNITY OF RED DEER

Red Deer is a vibrant and innovative city of approximately 100,000 people, whose residents value opportunity, fun, and family. Citizens enjoy an extensive urban parks system and many recreational, educational, and cultural amenities. Residents enjoy the benefits of a strong economy and access to abundant amenities, in a growing centre located halfway between Edmonton and Calgary.

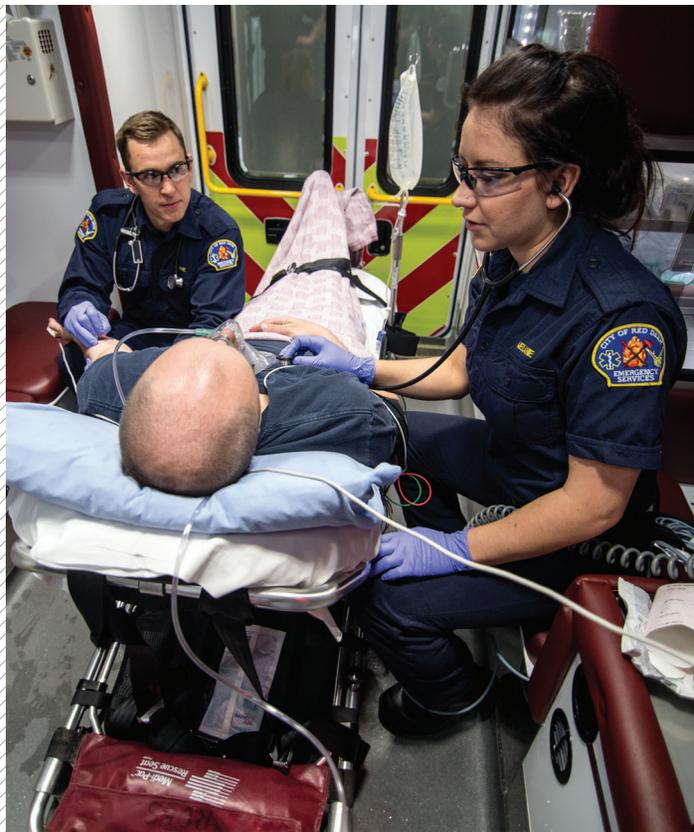

Find the right fit in Red Deer as part of a professional team and dynamic community.

TWO CHALLENGES  
ONE TEAM  
COUNTLESS REWARDS

Be part of a team that values a commitment to excellence on the job, ongoing training and advancement, camaraderie, volunteerism, and fitness.

## ONGOING TRAINING AND ADVANCEMENT

Because Red Deer offers a combined fire, rescue and Advanced Life Support ambulance service, there are a number of opportunities throughout your career to develop your skills.

As part of our commitment to serving the community in all emergency situations, Red Deer Emergency Services offers training in several areas including vehicle extrication, high angle rope rescue, river and ice rescue, hazardous material response, and fire prevention and public education. Continue your professional growth with an organization that supports your advancement.

## EMS AND FIREFIGHTING

Emergency Medical Services (EMS) and firefighting are challenging fields in their own right, but combine the two and you have an extraordinarily dynamic and rewarding career. Build that career with The City of Red Deer! We field a team of FireMedics who practice both EMS and firefighting, so that we can provide comprehensive Emergency Services to our community. All new employees must first be registered practitioners with the Alberta College of Paramedics, then are cross-trained as firefighters. We require applicants to have a minimum of training at the EMT-A level, but preference is given to candidates with EMT-P level training as well as fire training..

## HEALTH & FITNESS

Want to get paid to work out? FireMedics are not only encouraged to stay fit – it's built into the workday. We put a huge emphasis on health and fitness at Red Deer Emergency Services by requiring members to work out while on shift, so we've installed a workout facility in every station. Staff also receive discounted memberships to other City recreational facilities.

## CAMARADERIE

At Red Deer Emergency Services, you don't just go to work – you're going to your second home. Our co-workers are family. A shared sense of trust, humour, and perspective are key to the success of our team. Knowing you can rely on your colleagues makes for a rewarding workplace.

## VOLUNTEERISM

Our members are committed to their community. Red Deer Firefighters Children's Charity regularly contributes to meeting the needs of local children in our community. In the past, donations have been made to countless organizations including the pediatrics unit at Red Deer Regional Hospital Centre, the Central Alberta Women's Emergency Shelter, and the Red Deer & District Food Bank.
