## **Comments on the Census**

The City of Red Deer conducts a municipal census to determine the total population of our city.

Legislative Services is responsible for conducting the census and for the collection of census information. Information is collected under the authority of the Municipal Government Act (MGA), and is used for statistical purposes only. Any personal information collected is used for verification of the data and is not released. If you have any questions regarding the information collected or the statistical data provided in this report please contact:

## The Census

A census is an official count of the number of people living in Red Deer. But why does The City need to know how many people live here? Why conduct a municipal census?

- To establish the total population of our city.
- To help The City understand community needs as we move forward with future growth and development.
- To calculate the amount of provincial grant money Red Deer receives, which is based on the total population of our community multiplied by a dollar figure.

Census data is also used by a variety of outside agencies such as communities, businesses, charities and researchers.

### **What information was collected in 2013?**

Enumerators asked Red Deer citizens the following questions:

- How many people live in your household?
- What is the gender of each person living in your household?
- What is the year of birth of each person living in your household?
- Are you a Canadian citizen?

### **Will a census be conducted in 2014?**

Red Deer is still growing, which means our population changes all the time. The City plans to conduct a basic census in the year 2014; however, this will be discussed further during the 2013 mid-year budget review.

## The Results

Red Deer is home to 5,232 new residents – an increase of 5.7 per cent over 2011. That brings Red Deer's total population to 97,109.

The strongest growth occurred in the areas of Clearview Ridge with 714 new residents and Timberlands with 631 new residents.

Slight declines in population were experienced in the other areas, which may indicate children in those areas have grown up and left the family home, or residents have relocated to another area in the city and their previous residence is still vacant.

Census workers asked residents about the number of people living in the household, the sex and year of birth of each person in the household, and whether each resident is a Canadian citizen.

The average age of people living in Red Deer is 32 with a 49.4 per cent female population and 50.1 per cent male population.

The City thanks all citizens who participated in the 2013 Municipal Census.
